Local Government

BRIDGING INFORMATION PROCESSES

iBridge Group provides Document Management / Content Management services and solutions to the public sector.

We provide local government with efficient and highly secure solutions to manage core business documents and records. Digitizing land, tax, court and police records will dramatically increase efficiency and effectiveness of individual employees.

“Digitizing land, tax, court and police records will dramatically increase efficiency...”

City and County governments are under tight budget constraints but still need to meet the continuing demands of their constituents. City clerk offices, planning and development, police departments, finance, and human resources are among the various departments that are paper intensive and need to boost productivity and collaboration in order to meet high demands. These agencies need to deliver improved services to their constituents by routing documents, improving processes, and reducing costs

RECOGNIZED BENEFITS

- Deploy technology that is built for change and meets the most strict compliance standards
- Implement a central repository with the required security and access control
- Provide complete document security and disaster recovery
- Reduction of paper, copy and storage costs
- Provide online access of information and resources to branch offices, remote workers, partners, and vendors.
- Assist in compliance with Health Insurance Portability and Accountability (HIPAA)
